

## Information about your independent study

1) Study-consultations during the long course weeks. During the course weeks (May and September 2024) you will have a consultation to discuss your independent coursework and agree upon it with the management and teaching staff.

### 2) Study Assignments

Each student, who does not just participate as a guest, prepares a written assignment on a topic from one of the courses. The student can choose the topic for the assignment and ultimately agree upon it with the teaching staff. The assignment must be limited to approximately 1,000 words. The deadline for the submission will be made known closer to the time by the management group, and they will also give feedback on the submitted assignments afterwards.

### 3) Study Journal

Each student, who does not just participate as a guest, prepares a written study journal where activities in connection with self-study are notated (literature, church or community work, courses etc...) The extent of the study journal over a 3 month period should be approx. 500 words.

### 4) The Gospel

Each student, who does not just attend as a guest, prepares a written miniature of a maximum of 500 words on the respective gospel that the course week is dedicated to. Suggestions for this assignment will be given during the course week.

### 5) My free project

Here we give you an "open space". In this project, you are free to choose how you want to express yourself. What interests us is what you want to share. This can be expressed in the journal, or in other ways if you wish.
